

➤ 12. Miscellaneous

YAVCANCON
6200.41
Fixture identifier

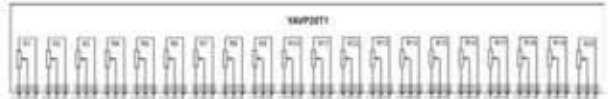

- Dual non-volatile Cycles counter
- Start test interface switch
- Maintenance soft panel
- CAN bus control
- Form E

YAVP20T1
6200.32
20x Multiturn potentiometers

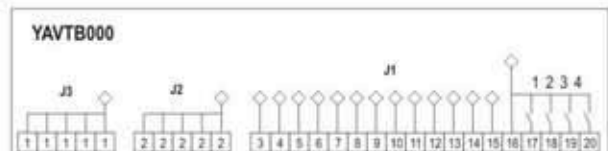

- 20x Multiturn potentiometers
- Passive board
- Customized in values
- Form E

YAVTB000
6200.39
ITA Terminal block

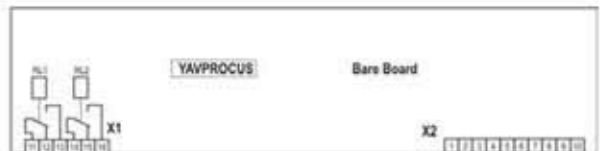

- Test points on all the nets
- Four DIP switch (Presets)
- 4x Terminals on power poles
- Form E

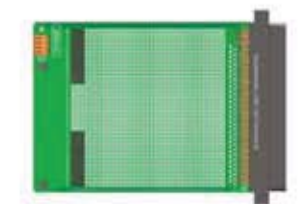

YAVPROCUS
6200.42
Special assemblies bare board

- Form E

YAV90BBR
6200.11
YAV Bare Board

- With microcontroller connection (8YAVCM01)
- Form A

8YAVCM01
8000.01
YAV microcontroller doughter board

- CAN bus, Ethernet, USB, JTAG
- 80 I/O's
- Trigger IN and OUT
- RAM with battery

Applications:

- Control unit for YAV boards
- Gateway Ethernet CAN
